

April Monthly EMS Report

2012

1. March was a quiet month for runs for EMS. We had a island only call that Dr. Frederickson helped with during the storm that closed the ferry line. We are very appreciative of her service and help.
2. We held both an administrative meeting and training meeting this month.
3. We will begin our EMS refresher this weekend. Then we have a weekend off and finish the weekend after that. Classes run all day both Saturday and Sunday.
4. The service has appointed a subcommittee to examine the roles of team leaders, define terms for officers and work on the by-laws. We will also define the EMS auxiliary team and start its promotion. We are breaking into small focus groups to get these tasks finished.
5. We are purchasing more radios for our growing team. John Carlson will start soon, we have a new driver and boat crew as well as Patty and Jen coming back to active service.
6. I attended the monthly service meeting with the EMS council in Ashland. I will be assisting and attending the May EMS Days at the Ashland Visitors Center.

Respectfully Submitted,
Cynthia Dalzell
EMS Director
